

SOCKET TESTER 8410

FEATURES

- 8410 is used to test sockets and RCDs
- Quick check of correct wiring of outlets
- PE error is shown clearly by LCD
- Quick and easy testing of 30mA RCDs
- Monitors contact voltages
- The fixed power plug enables quick and easy testing
- Can be supplied with country-specific plug
- Soft plastic holster as shock absorber and improvement of grip

SCOPE OF SUPPLY

- 1 pc HDT Socket Tester 8410
- 1 pc Instruction Manual
- 1 pc Carton Packaging

TECHNICAL DATA

Model	8410
Nominal voltage	230V AC
Frequency range	50...60 Hz
RCD/Fi Test current	30 mA
RCD/Fi Test time	< 300 ms
Contact voltage indication	20...25V AC/DC
PE-Error indication	25V AC against ground
In compliance with	IEC / EN 61010-1
Certification	CE
Measurement category	CAT III / 300 V
Protection degree	IP40
Battery	not necessary
Dimension	approx. 130 x 72 x 30 mm
Weight	approx. 260 g
